troopr02 wrote on Fri, 21 December 2007 16:47 There's this thing called a recticle, and you shows you where your shots will hit, use it.

That only works on weapons that fire their shots instantly. Sniper rifles, Personal Ion Cannon, Volt Auto rifle, etc.

All others take time to get to their target and if you're moving, and they're moving, that bullet will not hit your enemy.

I always try to move in the same direction they are and aim ahead of them, that way they run into my bullets, effectivly killing themselvs for me. ^\_^

AND...

=>.>=

Reaver11 does too.

Want to get together sometime then? Just the three of us. =^\_~=
