AircraftkillerI honestly don't see a reason to use REOL. No one plays on it. The last time I was there, which was yesterday, it had six people and ten servers, nine empty.

The harsh reality is that WOL is the main choice, followed by GameSpy Arcade, then nothing else... Because no one seems to know, or care, about REOL or Renegade Evolutions.

Call me whatever you want, say I'm being such a mean person (As always.), I'm just giving you the facts here.

the more people think like you the more it will stay empty

and what was up with you bieing a jackass on our server the other night
