Logtar wrote on Sat, 29 December 2007 10:56 Surprised that I never really heard about this game before. I have been looking around for info and where to buy it. I am intrigued by the community here...

Love RTSs, was a big AOE and AOK fan in the past, and play UT and CS:S... but looking for something different without having to upgrade my computer once again.

Where can I buy the game?

Hey Logtar! Welcome here to Renegadeforums!

I got the game 11 months ago in a GameStop. I think it was EBGames actually. Anyway, I am not so sure if they continue to sell them. These stores seem to carry only the recent RTS and FPS and not older games.

Anyway, keep looking! Also you can call them and check with them to see if they have them.

One thing to remember: Never buy the game as "used" or from online UNLESS it is new and sealed.
