hey reborn about the vet system, i added your code and tried to compile it, but there were many errors.
i got some help from roshambo with fixing some of the errors but at a moment roshambo said he needed the functions.
i cant seem to find those?
can you help on that?
1>gmmain.obj : error LNK2019: unresolved external symbol "bool __cdecl IsLowClassVehicle(char const *)" (?IsLowClassVehicle@@YA_NPBD@Z) referenced in function "private: virtual void __thiscall reb_vet_System_Vehicles::Custom(unsigned char *,int,int,unsigned char *)" (?Custom@reb_vet_System_Vehicles@@EAEXPAEHH0@Z)
