ok this is gonna sound wierd as i know what to use thats makes them

ok how do i gut 42 boxes out of 1 box that will make a tower

i use what you use for tunnels but it only cuts 1 box and if you try cut another it cuts that and puts over back

and i trye by connecting them all together that makes 1 box but when i do that it dosent cut the middleones to make it a empty tower

heres ss of what im trying to do
