The goooooood old "flame/bash mod war"... fun.

We have still to add the map "APB VS REBORN" on both reborn and apb mods...

Imagine: Soviet and Allies units VS GDI and Nod Units on a map! MOD WARS!

Then AR would totally come out of nowhere and Weatherstorm/Nuke everything xD

My vote still goes to AR for obvious reasons. The possibility of playing pirates with the dreadnaughts/aircraft carriers is just epic (if we decided to do it that way).

Now that I've tested Reborn, I understand how each unit plays it's part, therefore I withdraw my previous comment.

APB is awesome because it is really close to what Red Alert was but in FPS.
