Subject: Re: Scripts.dll 3.4.4
Posted by LeeumDee on Sun, 06 Jan 2008 04:42:54 GMT

When deleting dsd8.dll and shaders.dll i get the error while running renegade "ERROR: bhs.dll not found or did not load correctly" hit ok and the game closes.

I'm pretty sure i installed renegade the "right" way, as i purposely have installed it this time to add scripts 3.4.4 but i will reinstall with that guide tomorrow and see the results then.
