I think that abortion should only be approved if the woman/doctor can come up with sufficent proof that the baby will hurt the mother. For those of you that think abortion is a personal choice think about this. I consider a fetus a human being when, if they came out of the womb and lived, that they act like a normal human baby, mentally. It's kinda hard to say what I'm thinking, but you get the idea I hope. If a doctor performs an abortion, they should be charged with murder of a fetus/human being. It should also be illegal to smoke or do drugs or any other type of thing that can be harmful for your body.

I wish that now was like back in 1800s where if you made a mistake, you'd have to pay for it. Now you don't. You can just go to the doctor and say, "I had sex and now I'm pregnent. I don't want a baby, so could I have an abortion?" If you made a mistake and became pregnent, you should pay for it, not your child. Because that is what you are doing, you are killing your own child. Would you kill your 7 month old baby? NO!! Then why would you kill your son or daughter befor they were born?

If you say that you are fine with abortion, then you are not only saying that you are okay with murder, you are saying that it is okay to kill your children. Think about that, befor you say abortion is okay.
