Maud, u want "anything harmful" illegal, what about eating meat, should we all become vegaterians because of your beliefs?

And what about playing Renegade, it can lead to carpal tunnel and arthritis and should we all sit home as vegetables and stare at the TV 24/7? Wait TVs can produce harmful radiation and eye strain which could be deadly.

If we really think about it , the only proven thing living leads to is death which could be "harmful" so should we give up living?
