syrexok the ladder boxes are top and bottom so i put them where i wish for the ladder to be and then test my map and no ladder???? and one other thing why is it that when i add a ravesaw gun or ramjet rifle OR a ammo crate it will make my map crash when i try to test it?

The ladder boxes you speak of are only there to make it possible for you to do the "Press E" key and climb up, if you want the ladder to appear there, then take the tutorial I gave you and make it. The tutorial will walk you through, step by step on how to do it.

If you do have a problem then email me and I'll try to walk you through it.

contact bleboeuf, this is not correct. It was changed by someone on the site, it should read Captkurt not bleboeuf
