XpZs0c0m was trying his best trying to ban them,you guys kept complaing and complaing

Flame on the other hand,shouldnt of said what he said,and yeah his not much of a mod here anymore,but still Flame was the best mod to catch cheaters,since he wasnt ingame he didnt belive you guys,

If you guys posted on xphazegaming.com and showed XpZs0c0m those ss or other mods involved we could of banned them,

but instead you post here,and make us seem so bad....
