I'll admit, it was pretty hard. Especially when the girl does the "Lets talk dirty" thing. AKA: Making the boy get too horny for his own.

I'm not so much into the "let's talk dirty" as having the girl being open about sexuality. Saying things regarding being horny and having a little fun in showers and such. I can't resist the power of that.

I was in the whole "I hate the world" phase, but without the whole being angsty and emo moods. Still, that didn't stop me from trying to get somewhere with a few girls here and there.

Edit: Carrier, that's what has me saying, "and then you'll find out she's having sex with a guy on a staircase in the gym."
