Bandwidth: 128Kbs 4 players (cable modem/ADSL)

I saw this and thought I had to comment I'm not too sure 128kb/s runs that well with 4 maybe 2 but not 4.

EDIT: Well 4 players with 128 would lag but not alot I guess(unless it is a modded one) I still don't think 4 with 128kb/s would run very well at all really.
