I am so sorry it was my pleco of all the plecocs that was ever posted in this subforum that consumed bandwidth and hence got deleted.

Anyway, I had no intention of carrying on with it.

And no, just to make it absolutely clear, the "halfway decent conversation" was already over a long time ago (if you cared to read) and while the plecocs were unnecessary, it can in no way be described as us "resorting" to plecocs posts. Like as if we were losing the argument.

Thanks.
