trooplmafao....people like you, nikki, mvrighr etc, "WE hateEEE OUYIIUUI!!!!"e"e,,,,,,,,,,", thats hilarious lol. You spend so much time on these forums, dont even play the game period, and recommond some of the nerdest shit ive ever seen, RP2? LOL. You can't put me/surth in the same boats as your g33ky selves.

Normally I'd be "GTFO TROLL", but in this case, I'll humor you.

For one, I do other things than being on the forum. Usually, it's my job to be a jackass and point out that everyone else is a jackass in a sarcastic/bland manner.

Two, yes, I do play Renegade. I may not play AOW's as much, but I do play. Think before you say something stupid.

Three, Rp2 kicks the shit out of the majority of mods out there. Not ALL mods, and it's usually a matter of opinion, but if you've ever played the EKTRPG server (Which I know you havn't), then your opinion would probably change. It mixes an FPS with an RPG, which honestly, is pretty badass.

Four, yeah, you and surth are both jackass trolls that seriously need to get the fuck out of the Renegade forums. I'd say you're both in the good ol' USS Douchebag.

Five, GTFO TROLL.
