Heh, newbies...
You just had to copy and paste the link into your browsers, just like for Geocites. :rolleyes:

(They're trying to prevent any kind of waste of bandwith by making links that are displayed on other sites unavailable.

Unless you put the link in your browser.

I'm not really impressed with the current results right now...The shopping mall looks odd.

Lyqui, if you don't like Tripod, try n00bstories...   (http://www.n00bstories.com)
You'll have to register an account first before being able to upload images.
