AoBfrost wrote on Sun, 20 January 2008 02:40the 7500 is pretty cheap now and runs cnc3 at full settings and 1280x1024 smoothly.

That's a lie.

I have a 7900GS and it runs it like shit at that res, i have to have it on at least medium settings to get it to run realisticly (else i play in bullet time)...
