That's funny troop, because I've played Renegade quite a few times. I played it not too long after it come out (Granted, I was a nub for awhile, but yeah).

And I didn't say that you were completely wrong in saying the PIC is bad against arties- I half agree. While they're not the WORST tactic to take out arties, they're certainly not the best.

Maybe you should go e-stalk my xfire account and see it says 523 hours on Renegade, just like you did with u6, only to be all "LOLZ U R TEH PHALE 4 PALYING RENEGADE 2 MUCH!!11" only to be a gigantic hypocrite and laughed at by the whole community as usual.

That also doesn't include the times I've turned off Renegade detection for xfire for scripts.

Still think I don't play Renegade?
