It's not cheating. It could be seen as bug abuse, though, if really wanted.

By doing a certain key combo, u can enter the PT while looking away from it. Then you can do 'E' - '5' - 'left mouse button' very quickly and u'll refill and throw c4 very quickly.

For flaming apc u don't really need this anyway, u can just as well throw some c4's on there normally.
