Looking for anyone who can draw. I currently have about 3 different ideas for mods, and am in need of:

-Vehicles      -Buildings    -Skins    -Weapons

And maybe textures, probly not.

I am intermediate at best, but still learning (or trying), however I am at a point, thanks to school, that I can't learn quite as much as fast as before.

However I will be very useful in a month, and what/whoever I have then and I will complete a mod (probably quickly) and/or some maps.

Its up to you.

-Syco
