Goztow wrote on Fri, 25 January 2008 13:06Some people can just do it very fast... Maybe they have some kind of small macro for it as well. Compare it to a mouse button which u can configure to do a keystroke. Every time u hit that button, it does E-5-<shoot> . Not saying they are using this, just saying it's technically possible.
Logitech G15's. :/
