R315r4z0r wrote on Sun, 27 January 2008 10:34 Well we will get unnaturally frequent Earth quakes. Odd weather patterns.

If it hits the moon, we might lose high-low tide. (or get worse)

Oh yea, and the sky will flash odd colors while it passes.

If Governments were worried, they'd consult scientists. Not people from the Renegade Forums. Don't worry.
