Your proposals are silly (Except for the ban poll. That'd be kinda neat), and your complaints about moderation are sillier. No amount of moderation will catch 100% of the spam immediately. That said, the current moderation is doing fine. We just need to get some of these ban polls going and get rid of the less-desireable element (Scrin, TEO, HORQWER, RenAlpha, etc...).

That said, this isn't a Crimocracy, it's a Crimtatorship. If you're unhappy with these forums, you're free to start your own.
