CrimsonwarrantoThey look great! They just don't seem to fit the n00bstories layout though. They're too vibrant compared to the sites blander look.

Hey, I like simple. It makes it easier to get around and find what you're looking for. It will look much better when I finish the redesign.

However cool those banners are, I would prefer to hold strict to the Nod/GDI theming and those banners, color-wise, are team-neutral.

No problem, I'm happy to help in anyway, if it comes to graphics.
