Starbuzz wrote on Fri, 01 February 2008 23:43 Definitely a reasonable scenario. ^

What makes this likely is that not only are these cables just Internet traffic but also telephone traffic.

If we think about it, and if an advanced intelligence entity was indeed behind these mysterious incidents, then it is all the more possible...finally someone gets to listen in on what the Middle East leaders are talking about.

Unless their using their own lines... that'd piss them off lol.
