Easist way to install CP1 and CP2 at the same time.

Please uninstall Ren, reinstall it, apply the 1037 patch.

Now assuming you have done as I have stated you should have a nice clean install to work with.

Download this and extract the two files to ..\Westwood\Renegade\

Now that you've done that download this and extract all the files to ..\Westwood\Renegade\

When everything has been extracted run patcher.exe and it should begin to install CP1 and CP2 at the same time.

When that finishes you can then if you want to, download and install scripts 3.4.4 from here

Should you get any errors do please come and tell us.
