Hi we're a newly formed clan, here's a brief intro about us.

History:

Epsilon International was founded in 2007 as a private contracting organization , next to that we have also recently formed a clan {-Xc}, it's made out of a coalition of smaller clans and communities.

We like to promote the idea of several Clan and non-clan factions working together to achieve a greater cause.

Right now we have about 30 members in our clan, a website , testing a server, and a few freelancers helping out with designing .

Our policies are very flexible

Depending on your personal time-schedule, you can adjust your status to what suits you best:

- Fulltime
- Parttime
- Civilian

We are a raw mix of ethics, standards, warrior ethos, army culture, principles and values and we verify the importance of initiative and skill, meaning if you had a high ranked position in a former clan, you can continue your success in our clan with a similar position.

We are a clan of many.

One thing we all have in common is that we are all Renegade clans.

Our coalition is formed out of mutual respect of each other.

We are all renegade clans and we recognize that together we can do much more.

If you are interested to join the coalition as a clan,

Here's what we offer:

as commander of your clan, not only will you remain commander of your troops within our network but you will also have a say as a general of our core group.

Our system is based on a confederation.

What we are looking for:

- Clanmembers
- Freelancers

- Clan coalitions
- Clan alliances

Interested ?
