I am looking for a rare renegade map. It is a test map I believe.

Not sure what its called I think it was made by sgtmay.

It had the working banshee and the working orca bomber. It had tons of turrets and rocket turrets set up. One banshee and one orca bomber was outside as default.

Anyone know what im talking about? (Note: It is NOT cnc bombing. That map doesnt have a model for the orca bomber)
