Calx wrote on Tue, 08 January 2008 23:53I've been playing TSUgaming AOW recently, and I was upalled by the amount of racism, profanity, and hate that I encountered while I was there.

Why did you feel the need to let everyone find out about that sort of info?Quote:

\*\*\*This message goes out to everyone who is a part of TSU. Not everyone on the forum.

Go to the bloody right forum then!

I go on, minding my own business, and someone asks me, "How does it feel to be a halfbreed asian mean mean black person?". We argued for awhile. And I left. I came back the next day, and got the same welcome.

You can't have been minding your own business if they found out about your ethnicity AND sexuality...and i don't think you are telling it as it is...

Quote:

Yes, I'm half chinese, and I'm half black. I'm still human.

And your point is?

Quote:

I'm also bisexual, and because of that, I recieved such insults as "Faggot, loser, bitch, pussy, gay, ass-humper", and a few more I would rather not elaborate on.

That is their problem, not yours. If you truly feel comfortable with your sexuality, you will ignore them.

This seems childish to rant about such a thing, yes. However, this is a game. This forum, and this game, is to have fun, and to share good times, not make bad ones.

Why did you feel the need to tell everyone your ethnicity and sexuality if it is just a game then?

Quote:

What is so wrong with some of you in the head that just because someone is a bit different than you, you have to go ape-shit on them?

People can be idiots...ignore them.

Quote:

I'll tell you whats wrong. Your calloused, evil, and disgusting.

Isn't that just as judgemental?...find the irony...

Quote:

Let me tell you a little bit about my life.

isn't doing that what got you into this mess?

Quote:

I make 150k+ a year. I have a wife. A comfortable home in Ocean City, I have a daughter. And occassionally, I play Renegade for a few hours after the week.

Someone is after an ego boost...

Quote:

You know what I had to go through to get there? Jobs turned down because of my bisexuality, people beating the crap out of me in college when I'd come out of clubs, constantly being refereed to as "faggot" or "asswhipe" through my entire life, and having to deal with shit none of you little momma's boys could even imagine.

Why tell us about your hardships...we don't care!

Quote:

You think I'm the strange one? I'm the weird one? Yeah, maybe I am. But you are even stranger, and weirder. You know why? Because instead of trying to make a friend, or just play the game, you actually take up your OWN TIME just to make another person feel worse.

Now you are just ranting...

Quote:

You are the bottom of the food chain my friends. I make MONEY. I have a LIFE. And somehow, despite all of my trials and tribulations, I've made something out of myself. I can't say that for most of you.

Again, you are saying it to make yourself feel good...

Quote:

You? You sit home on your fat asses and poke fun at some halfbreed bi-guy because it makes you feel superior.

While you post about being victimised and your life story to generate sympathy for you, and feel good about yourself...

Quote:

I'm not trying to be mean, I'm not trying to start a flame war. I'm trying to show you exactly what you are. Fools. I've been through enough shit in my life, and I don't need you idiots making it any worse. So have a field day with it, because when your still sitting on your asses eating cheetos, I'll be the bigger man, who has a life. You won't.

When you don't post the whole truth you are bound to start a flame war.

Also, again, if you are really secure about yourself you wouldn't have needed to tell us about this...no, scratch that...you wouldn't have even THOUGHT of coming on here and posting about it.

All that post does is show us how insecure you really are...especially if you get affected by what some moronic teen-agers say over a game.
