So if I go for the 6000 x2 should i still get that other motherboard? (The M3a32)

Also I found some other cases. The annoying thing is some of them don't specify which demension is the length/width/height.

<http://www.newegg.com/Product/Product.aspx?Item=N82E16811133040> This one may be bigger depending on which demension is which...

<http://www.newegg.com/Product/Product.aspx?Item=N82E16811208021>
Same reason as above.

<http://www.newegg.com/Product/Product.aspx?Item=N82E16811129021>
This one is just an inch bigger.
