trooprm02 wrote on Wed, 20 February 2008 23:58 4GB ram for under \$100? wtf?

RAM is very low priced at the moment actually, so that's not so hard to believe. I got an extra 2gb of Crucial RAM for my machine (2x1gb) for £30 or so recently (~\$60 or so) to bring it up to 4gb.
