I like rock and metal... but it is definitely nowhere near my favorite. It is like a 4/10 on my favorite scale...

However everything else on that list either I never heard of or I hate with a passion.

And I hate how people say "OMG that song is emo." There is no "emo" song unless it specifically says "I hate my life and want to kill myself to make everyone feel bad"

An "emo" song is left up to the person who listens to it. It doesn't matter what the lyrics say, it is what the listener images in their mind. Therefore if someone thinks a song is emo, most likely they are the emo.
