Okay I have a problem, I am making a map using heightfield with the building mp_nod_conyard and you cant export the whole thing as terrian because then when you try to move the building all the interior meshs move apart so I have to do them seprate which works fine with other buildings except this one I exported the .w3d and I got the two sections allined except all the emmiters are showing and and the PCT is messed up and the MCT will not target either. So I have no clue what he problem is; help anyone?
