I disagree. A n00b who uses the "YOU CHEATED" is probably new to the game. A n00b who says "it's just a game" is one who has played the game, never improved, did not grasp the concepts, and is now just a headless snake.

Wow? You're a idiot. I'm telling you people to get over it. To stop taking Renegade so seriously. Honestly!

Then you started accusing me of sucking at the game, and I don't fucking care? Do you think I'd care if I'd say "It's a game"? No. Stop being a dork, and think about something other than renegade.
