Also, for those of you who say "MWright may not be any good but....". Have you ever even played with me? No. Only Starbuzz, and maybe Cabal have played with me in game a few times. None of you know what I'm like, nor my ability level. I'm not a master, no, but I also have a life, and I can't devote it to a game 24/7. If anyone would like to play me on Jelly server or something, I'll be happy to take up the offer and most likely annihilate you

Anyhoo, if for some reason it was lag or something, and he honestly did beat me, then congrats troops, you won fair and square, but I honestly don't think you did.

Please continue with the flaming of troop's ignorance.

It's kind of obvious you suck, Mwright. Far from being a "master" (C4Smoke lol), I would guess from your posts here that you've never played the game and just briefly thumbed through the manual.

I repeat, until you've played me, please reserve your assanine judgement.
