BlackHand Sniper

When you're a cute little hotwire humming a tune while you're making your way to Blow up the Ref or summat...

Suddenly this 'Villain' pops out and confronts you! Sends shivers down your spine.

Most bad guys wear a mask (ie darth vader) to make themselves look more intimidating.

True true, I don't think alot of people use this element of suprise though, but yes it does hapen.
