Crimson wrote on Mon, 10 March 2008 16:32l assure you there is no public release planned.

How can you be sure? No offense, but the guy works for EA, it was the same person who is "intresting" (acting to be I think, tbh) in the development of ren2k7 who said something along the lines of releasing the source code when the other C&C stuff cools off, and something similiar was even said by him on their own forums, thats why I thought this entire topic started, because people started hearing about this...
