I always love the "Getting high kills doesn't affect your team" comments. Are that much of a dumb fuck? Me killing people means the following:

1. Its fun. Games are for fun. Therefore it rocks.
2. When I kill someone, it sends them back to their base. Thus, that SBH ready to sneak in, that Engi attacking my ref, that shotgunner ready to take out unsuspecting snipers...I kill them, therefore it keeps them from affecting my team mates.
3. Headshots and kills add a LOT of points to the grand total. But wait- I could just be MRL whoring right? Everyone could be. Then there would be no one taking out the infantry. Then there would be a bunch of infantry taking out the MRL's...Then there would be no MRL's...

Please reserve your dumb fuckitude for someone less experienced  
omg.
