As some know, Mt0wn (Mount Ownage) has been around for 5 years but only became a gaming community 3 years ago. Mt0wn has always been one of the favorite places to do 500 sniping. I've only hosted infantry based servers such as sniping and ctf. Today, I believe it is the only 500 sniping server on renegade still running and still doing good. It has its days however.

Anyways, straight to the point, recently I've started Mt0wn over from scratch and removed everyone from the moderation staff and even started a new fresh website. A majority of my old staff recently have disappeared one by one or have stopped playing ren for CoD4. Now I'm in the need of staff. My mod team is currently very short. I've also lost coders and gfx artists aswell.

So now I ask, if anyone is interested and would like to join Mt0wn, it would be appreciated. Coders, moderators with experience, gfx artist, etc. I know a lot of skilled people on these forums but not once have I ever worked with most of them yet.

Also in time, when ever there is a chance, I plan to make room for more games so that mt0wn won't just be based on renegade sniping forever.
