That's what I just said. He asked for me to give him an "IP range" of
The_Elite_General/Tiberian_Robot.

HOWEVER, in EKTRPG, every different time he comes in, he has a different IP. Mind you that
when he leaves as Tiberian_Robot/The_Elite_General, he comes back in as
The_Elite_General/Tiberian_Robot (Whichever one he wasn't before), he still has the same IP as
he had before, so yeah.
