Goztow wrote on Sun, 23 March 2008 12:23I'm not sure if he wants actions against your mods or rather just share his bad experience with everyone.

But if he wants something done from you guys, he should go to your forums, that's true .
If they had a problem with us, they could've came to our forums and the problem would be resolved easier, instead of going out and spreading rumors that our moderators abuse and our servers tamper with your computers.
