I just recently found out there is a 3rd firefox now(I really need to check stuff more often) I thought I would download the latest beta(Beta 4) of it, so far I love it, and I also noticed that it does use less memory not much but still a little less(ff2 used around 61k, ff3 uses about 53kish), what does everyone else think about Firefox 3? Oh and here's a link for bit more info on it: http://en-us.www.mozilla.com/en-US/firefox/3.0b4/whatsnew/
