EA has confirmed that Tiberium, the hyped new FPS set in the C&C universe and considered by many as the successor for Renegade, will include a certain number of C&C Renegade elements.

One of them will be a stealth character which will be purchasable from the start of the game in a yet to be revealed game mode.

ZoneRunner, community manager of Tiberium:

The Stealth Black Hand is considered by many online gamers as a mysterious character. The idea of having a device making you invisible for the human eye intrigues a lot of persons. On popular demand, this character will be back in Tiberium's online play.

We hope to be able to give you more details on this announcement soon.

Edit: April's fool .
