---

Hi all. i've installed renegade again..

But this time, i've a problem with

CP1.. I've download it from

<http://www.renegadeforums.com/index.php?t=msg&th=18892&start=0&rid=40> And i've run the patch.

But he says :

Applying HISTORY File Patch for 'data\Always2.dat'

Old File not found.

So i download Always2.dat from that link..

But now he says:

error ept0036: Old File not found. However, a file of the same name was found. No update done since file contents do not match.

What do i have to do?

please help!

Greetzz, Mikka
