no u got to enable it

```
#-----  
# Gamespy Settings  
# Settings to control the Gamespy broadcaster. See the readme for more details.  
#-----
```

```
# Enable the GSA broadcasting system  
Generate_Gamespy_Queries = 1
```

```
# Query port for your server, which GSA uses to communicate with your server  
GameSpyQueryPort = 25300
```

```
# Enable broadcasting to GSA, if disabled the server will not be listed on  
# the server lists. Also requires the gamespy_players module to be enabled.  
Broadcast_Server_To_Gamespy = 1
```

```
# Your servers external IP  
GameSpy_IP = 123.123.123.123  
tbh
```
