Its just Renegade with a different skin.

I've a feeling you shouldn't have said that...

Anyway, I wouldn't compare Conquest mode with C&C Mode. They are completely different. C&C Mode allows the match to define itself in the sense that chokepoints present themselves to the players instead of having a big sign that says "THIS IS A STRATEGIC POSITION! CAPTURE ME!". On larger maps, flow of the game is mroe dynamic when compared to Battlefield's mode.
