Goztow wrote on Sat, 19 April 2008 16:38ls that the old html output or a php based output page?

Edit: nvm, just saw u used hex's php output code. U'll have to talk with him .

You are correct on the output type. We use a .txt file which gets updated to a SQL database. I haven't played with the new sql dump feature yet though. Sticking to what works for now.

I am curious if the minimum score clause is more to do with the plugin rather than the web output.
