Ghostshaw wrote on Thu, 24 April 2008 08:09 This is all pretty much prehistoric and useless tbh? If you want a mid-range performance card like the 7600 GT just get the new 9600 GT, it wipes the floor with anything ATI has available atm.

-Ghost-

Haha right.

The 3800 series is slightly better than the 9600 either on performance and price.
