Ghostshaw wrote on Thu, 24 April 2008 09:09This is all pretty much prehistoric and useless tbh?
If you want a mid-range performance card like the 7600 GT just get the new 9600 GT, it wipes the
floor with anything ATI has available atm.

-Ghost-
lol 9600 is fkn expensive performance is not that optimal.
i would w8 for stable drivers anyways
not forget to mention that the summer is coming and u should go out to the beach or something
instead wack off on hd p0rno
