HINT=

Take SkateparkV2 and Roleplay. They are by far the maps with the most height I've ever played. Except one...

For Roleplay, fly over a deep valley and go up till the end. Exit, fall and measure the time till your soldier dies when hitting the ground.

Even in SkateparkV2, it will take almost a full minute till ground contact.

But nothing beats Afghanistan! In Afghanistan, just start at the GDI Base and do the same. From NOD to GDI with a VTOL will take about 10 (!) minutes, so you should fall about 5 at least.
